📍 Online

### Student / Glints Academy x Binar Academy

- Final project **Shuttle** - book your bus easily:  
Shuttle is an app to help people to book bus tickets without having to go to the bus terminal and wasting their time
- Technology for establishing Shuttle application:
  - Node.js as the base of the application
  - Express.js for framework
  - PostgreSQL for database
  - Payment gateway using Midtrans
  - Build rest API for Frontend and React Native team for Shuttle project (Bus booking app).
- Documentation Shuttle Application :
  - **Web App:** <https://tinyurl.com/ShuttleWebApp>
  - **APIs Doc:** <https://tinyurl.com/ShuttleAPIDoc>
  - **Mobile App:** <https://tinyurl.com/ShuttleAndroidAPK>
  - **Video Promo:** <https://tinyurl.com/ShuttleVideoPromotion>
  - **UI/UX Design:** <https://tinyurl.com/ShuttleUIUX>
- Mini project **Movie Review Application:**  
Create movie review apps, just like imdb. Server-Side and Client-Side are fully integrated. There's two kinds of users here, first admin and then the second one is just user
- Technology for establishing movie review application:
  - Node.js as the base of the application
  - Express.js for framework
  - MongoDB for database
  - Build rest API for Frontend
- Documentation movie review application :
  - **Web App:** <https://tinyurl.com/MovieWebApplication>
  - **APIs Doc:** <https://tinyurl.com/MovieAPIDocumentation>
  - **UI/UX Design:** <https://tinyurl.com/MovieUIUX>
